FIRST BATTERY - INFORMATIVE

We are now going to read to you information about a proposal that would create a Prescription Drug Affordability Board for the state of Colorado. After hearing the information, please tell me if you are more likely to support or more likely to oppose a Prescription Drug Affordability Board. If the information makes no difference in your opinion there is an option for that as well. Let's get started.

T5. The mission and purpose of a Prescription Drug Affordability Board is to lower the cost of prescription drugs for Coloradans. Knowing this information are you...

NEGATIVE MESSAGES

We are now going to read to you some statements made by opponents of the proposal to create a Prescription Drug Affordability Board. Please tell me whether each statement is a very convincing, somewhat convincing, not very convincing, or not at all convincing reason to oppose the proposal.

T13. This proposal creates another government bureaucracy with the power to institute price controls and determine the costs of prescription medication.

NEGATIVE MESSAGES

We are now going to read to you some statements made by opponents of the proposal to create a Prescription Drug Affordability Board. Please tell me whether each statement is a very convincing, somewhat convincing, not very convincing, or not at all convincing reason to oppose the proposal.

T13. This proposal creates another government bureaucracy with the power to institute price controls and determine the costs of prescription medication.

POSITIVE MESSAGES

We are now going to read to you some statements made by supporters of the proposal to create a Prescription Drug Affordability Board. Please tell me whether each statement is a very convincing, somewhat convincing, not very convincing, or not at all convincing reason to support the proposal.

18. Nearly one-in-three Coloradans struggle to afford the prescription drugs they need to stay healthy, forcing families to choose between buying their prescriptions or paying rent and buying groceries.

POSITIVE MESSAGES

We are now going to read to you some statements made by supporters of the proposal to create a Prescription Drug Affordability Board. Please tell me whether each statement is a very convincing, somewhat convincing, not very convincing, or not at all convincing reason to support the proposal.

18. Nearly one-in-three Coloradans struggle to afford the prescription drugs they need to stay healthy, forcing families to choose between buying their prescriptions or paying rent and buying groceries.

Table 20-6

T20. Drug companies spend almost twice as much money on advertising as they do on research and development. Reducing the cost of prescription drugs in Colorado won't impact their overall research and development efforts.

Table 21-6

T21. Supporters of a Prescription Drug Affordability Board say that reviewing the costs of drugs is not a new idea. The state already reviews costs for many other essential products including hospital services, insurance, and electricity. This proposal simply extends the practice to prescription drugs.

Table 22-1

CONCEPT AND REVOTE

T22. Which of the following statements comes closest to your view? I. The cost of drugs in Colorado and the U.S. needs to be brought in line with the costs in other countries. This Board will put a necessary cap on the cost of unaffordable drugs so that Coloradans can get the medicines they need at a reasonable cost. II. The proposed Board is unnecessary. The state should let the free market regulate the cost of prescription drugs. The Board will result in reduced investment, limited experimental research, and make important medicines unavailable to Coloradans.
